

Dr. Steffen FRITZ

International Institute for Applied Systems Analysis (IIASA) / Strategic Initiatives Program & Advancing Systems Analysis Program / 2361 Laxenburg (Austria) / +43-676-838-07353 / fritz@iiasa.ac.at

Date of birth: June 11th, 1969
Place of birth: Metzingen, Germany
Nationality: Germany
Family status: Married, 1 child

PROFILE

Dr. Steffen Fritz studied physics and geography at the University of Tübingen and received a Master of Science degree from the University of Durham in 1996 in Geographical Information for Development. Subsequently, he was then awarded a studentship from the School of Geography at the University of Leeds where he finished his PhD in 2001. Dr. Fritz was already at that time interested in the interface between humans and their environment where he researched the topic of how the wild land perception of people could be mapped.

Dr. Fritz undertook a Postdoctoral Fellowship at the Joint Research Centre (in Italy) from 2002. During this time, he learned image classification techniques for land cover, where his primary task was to mosaic, harmonize, and produce the Global Land Cover 2000 database. Based on his work on land cover, Dr. Fritz investigated the uncertainties in global land cover, which has resulted in many subsequent publications.

However, in the joint effort search for a solution to this big global data problem, Dr. Fritz had initial thoughts to develop an open transparent land cover visualisation and validation tool. The opportunity to do so came along in 2009 at IIASA, where Dr. Fritz has become the initiator and driving force behind Geo-Wiki.org and Geo-Wiki mobile, a global land cover validation tool based on Web 2.0 and crowdsourcing. The initial paper published on Geo-Wiki.org was awarded the 2nd best paper in the Journal Remote Sensing (<https://www.mdpi.com/2072-4292/5/2/862/pdf>).

Dr. Fritz was the Principal Investigator of the ERC funded "CrowdLand" and the H2020 funded "LandSense" and "WeObserve" projects, as well as many others. Dr. Fritz currently is going to lead the ERC Grant "Picture Pile Platform".

The research interests of Dr. Fritz are transformative societal and policy solutions, machine learning and artificial intelligence, earth observation, citizen science, crowdsourcing, volunteered geographical information, food security, land-use science, global and regional vegetation monitoring, crop yield and crop acreage estimations of agricultural crops, serious gaming, gamification, and in-situ data collection of land-use and land cover via mobile technologies, as well as citizen science for SDG monitoring and implementation.

As of January 2021, Dr. Fritz leads as Program Director the Strategic Initiatives Program (SI), which aims to improve the prospects of a sustainable future for humanity and to deliver transformative policy solutions.

In addition, Dr. Fritz is Researcher at the Novel Data Ecosystems Research Group which is part of IIASA's Advancing Systems Analysis Program (ASA).

EDUCATION AND ACADEMIC QUALIFICATION

- 1997 - 2001 **Ph.D.** Geographical Information Systems, Wildland Research, Biogeography, Biodiversity, University of Leeds, UK
Thesis: *Mapping and Modelling of wild land areas in Europe and the British Isles: A multiscale approach.*
- 1995 – 1996 **M.Sc.** Masters in Geographical Information for Development
Theory of Geographical Information Systems, Remote Sensing, Integration of GIS and Remote Sensing, University of Durham, UK

Dr. Steffen FRITZ

International Institute for Applied Systems Analysis (IIASA) / Strategic Initiatives Program & Advancing Systems Analysis Program / 2361 Laxenburg (Austria) / +43-676-838-07353 / fritz@iiasa.ac.at

Dissertation: *Wilderness mapping of Venezuela (distinction)*

1994-1995	Graduate studies in physics and geography at the University of Tübingen, Germany Physics: Practical work in Experimental Physics II, Geography: Map Interpretation, Civilisation Ecology, University of Tübingen, Germany
1993-1994	Exchange student, Geography Department, University of Newcastle, UK
1990-1993	Graduate studies in physics and geography, University of Tübingen, Germany
1980-1989	High school graduation (Abitur), Gymnasium Metzingen, Germany

PROFESSIONAL

Since 01/2021	Program Director Strategic Initiatives Program (SI) and Researcher at the Novel Data Ecosystems Research Group (NODES) within the Advancing Systems Analysis Program (ASA) International Institute for Applied Systems Analysis (IIASA), Laxenburg, Austria
04/2020 – 12/2020	Deputy Program Director of the Ecosystem Services and Management (ESM) Program, IIASA, Laxenburg, Austria Centre Head of the Earth Observation and Citizen Science (EOCS) Research Group, IIASA, Laxenburg, Austria
07/2019 - 04/2020	Acting Program Director of the ESM Program, IIASA, Laxenburg, Austria
2007 - 07/2019	Deputy Program Director of the ESM Program Centre Head of the EOCS Research Group Research Scholar , ESM Program, IIASA, Laxenburg, Austria
2007-2010	Research Scholar , Forestry Program, IIASA, Laxenburg, Austria
2005 - 2007	Researcher at the Agricultural Unit, Joint Research Centre (JRC), Ispra, Italy
2004	Research Scholar , Forestry Program, IIASA, Laxenburg, Austria
2002 - 2004	Postdoctoral Research Scientist at the Global Vegetation Monitoring Unit (GVM), JRC, Ispra, Italy
2001 - 2002	Consultant for INFOTERRA at the JRC, Ispra, Italy
1999	Consultant for Scottish Natural Heritage at the University of Leeds, UK
1998-1999	Part-time Lecturer at Trinity College Horsforth, Leeds, UK
1997	Researcher at the World Conservation Monitoring Centre, Cambridge, UK

SCIENTIFIC NETWORKS

Since 2020	Member and part of the expert group of the European Space Agency on AI - AIREO Network (AI-ready Earth Observation training datasets)
2018-2020	ISO/TC 211 N5425
Since 2019	Member of the GEO Community of Practice on Earth Observation and Citizen Science
2013 -2017	Vice Chair of the COST action “Mapping the Citizen Sensor” (Lead: Prof. Giles Foody, Nottingham)
Since 2012	Participant in the GEOGLAM initiative supported by the Group on Earth Observation
2009-2012	Member and task contributor to the Group on Earth Observation Initiative, member of the GEO since and technology committee and geo data sharing working group

FUNDING

Dr. Fritz was responsible for the budget and tasks in the following projects either as Co-ordinator, work package leader or task leader:

- Since 2013 *GeoCarbon- Operational Global Carbon Observing System (FP7 Project 283080)*: The project is coordinating the contribution of European and international research institutes to the development of an Operational Global Integrated Carbon Observation and Analysis System. **Task Leader**, Budget 189,882 €
- 2011 – 2013 *GEOSAF-Using GEO for Early Warning and Food Security in East Africa*. Within the project researchers will create short-term soil moisture forecasts using several crop growth and soil moisture models as well as the dissemination of this data using smartphones. **Work package leader**, Budget 82,460 €
- 2011 – 2013 *FarmSupport- Weather Forecasts and Soil Data for African Farms*: Funded by the Austrian Science Fund; ASAP) The project is developing an application to provide farmers in Ethiopia and Kenya with weather forecasts and soil moisture information to help them make better agricultural decisions. At the same time management data from farmers are collected. **Project Co-ordinator**; Budget 150,000 €
- 2011 – 2012 *LandSpotting-Collecting in-situ Data for Earth Observation Product Validation via Social Games* (Funded by the Austrian Science Fund; ASAP, Nr. 828332): The project contributed to the improvement of the quality of land cover information by vastly increasing the amount of validation data available for calibration and validation of satellite-derived land cover. **Co-ordinator**; Budget 361, 664 €
- 2010 – 2013 *ISAC-Information Service on Agricultural change* (FP7 Project 262937): High-frequency, high-resolution imaging from new satellites and ag. Statistics is providing detailed agricultural information that will allows scientists to better monitor the impacts of drought and climate change on crops and model future agricultural productivity under different climate change scenarios. **Work package leader**. Budget: 400.000 €
- 2010 – 2013 *BalkanGEONet- Towards Inclusion of Balkan Countries into Global Earth Observation Initiative* (FP7 Project 265176): The project is designed to strengthen existing Earth Observation research and participation among the Balkan countries and encourage those countries not yet involved to join the GEO initiative. **Task Leader**; Budget: 74,001€
- 2010 – 2012 *EGIDA- Improving Earth Observation Methodology* (FP7 Project 265124): The project fosters a standard methodology to support GEOSS, the Global Earth Observations System of Systems, through development of evaluation processes, assessment indexes, and databases. The candidate is **Work Package Leader**; Budget: 117,800 €
- 2009 – 2012 *EuroGEOSS-A European Approach to GEOSS* (FP7 Project 226487): The project contributes to the international efforts to create the Global Earth Observation System of Systems (GEOSS) by making existing systems that gather data on forestry, drought, and biodiversity interoperable and easier to use; to incorporate data from citizen from citizen science and Geo-wiki. **Work package leader**; Budget: 584,350€

POSTDOCTORAL SUPERVISION

Dr. Fritz has supervised or co-supervised more than 25 PhD students which were selected to take part in IIASA's young summer student program (YSSP).

Dr. Steffen FRITZ

International Institute for Applied Systems Analysis (IIASA) / Strategic Initiatives Program & Advancing Systems Analysis Program / 2361 Laxenburg (Austria) / +43-676-838-07353 / fritz@iiasa.ac.at

NON-REMUNERATED APPOINTMENTS AND ACTIVITIES

Lead Author, Millennium Ecosystems Assessment

Editorial Board, Open Geography Journal

Guest Editor, Special Issue, MDPI (from 01/2020-05-2021)

Guest Editor, Special Issue, MDPI "Citizen Science and the Role in Sustainable Development" (ISSN 2071-1050)

Guest Editor, Editor of a special issue on Collaborative Mapping for the ISPRS International Journal of Geo-Information

Editorial Board, Nature Scientific Data

Reviewer for: PNAS, Remote Sensing of Environment, Canadian Journal of Remote Sensing, Remote Sensing, International Journal of Earth Observation and Geo-information, Journal of Land-use Science, Open Geography Journal, IEEE Remote Sensing, Environmental research letters

AWARDS

- 2013 "Best paper award" of the journal Remote Sensing of the year 2009 with the title "GeoWiki.org: Using Crowd Sourcing to improve global Landcover"
- 2016 „Citizen Science Awards“ – use of app "FotoQuest"
- 2020 "Innovative Applications in Analytics Award" from Analytics Society of INFORMS, Kinaxis and Adelphi University. The Award is to recognize the creative and unique application of a combination of analytical techniques. The prize promotes the awareness and value of the creative combination of analytics techniques in unusual applications to provide insights and/or business value.
