

3-G Status at IIASA

You can attest to your 3-G status and can therefore be qualified as presenting a low epidemic risk if you can produce one of the following:

1. **Proof of vaccination (full immunization)** with a COVID-19 vaccine listed in the ordinance on mandatory COVID-19 vaccination ([COVID-19 Impfpflichtverordnung](#)) in Austria: BioNTech/Pfizer, Moderna, AstraZeneca, Johnson & Johnson, Sinopharm, Sinovac, COVAXIN, COVOVAX and Covishield.

Validity periods:

- The first vaccination series (two shots or a confirmed recovery and one shot) is valid for 180 days
- Booster shot – up to 365 days since the vaccination

2. **Proof of COVID-19 recovery**

Validity period:

- A segregation order (Absonderungsbescheid) issued by the authorities or a doctor's confirmation of a COVID-19 infection, both based on a PCR test – up to 180 days

3. **Proof of official negative COVID-19 test**

Validity period:

- PCR test is valid for 72 hours.
- Antigen test performed by an authorized body is valid for 24 hours.
