“ Being an IIASA postdoc has given me the freedom to pursue innovative systems research, and great chances to build a global network of collaborators.”

**Paul Kishimoto, IIASA postdoc**

IIASA is an international research institute based near Vienna, Austria. A global leader in systems analysis, IIASA conducts policy-oriented multidisciplinary research into challenges that are too large or complex to be solved by a single country or discipline. These challenges, which include **climate change**, **biodiversity**, **energy security**, and **sustainable development**, must be solved by international cooperation.
