

# (Global) Resource Demand Need clearer definition

(Consistent with SSP3)  
 Collapse  
 Risk for boom-&-bust economy  
 Poorly regulated  
 Unhealthy growth  
 Little Env concern → Env destruction  
 More emphasis on national priorities  
 than on common goods

**Low**  
 (SSP)  
 1850 Economy  
 Lack of jobs / Out-migration  
 Poverty  
 → Empty Arctic as a “protected area”  
 Tourism?

(Consistent with SSP5) Resource based economy  
 GREEN GROWTH  
 Healthy development  
 Sustainable growth  
 New tech/Innovation/Creativity  
 Diversified economy  
 Well-regulated human activity  
 Strong Env. protection / Sustainable ESS provision  
 Taking consideration of different concerns/interests  
 Channeling resource income to local comm.

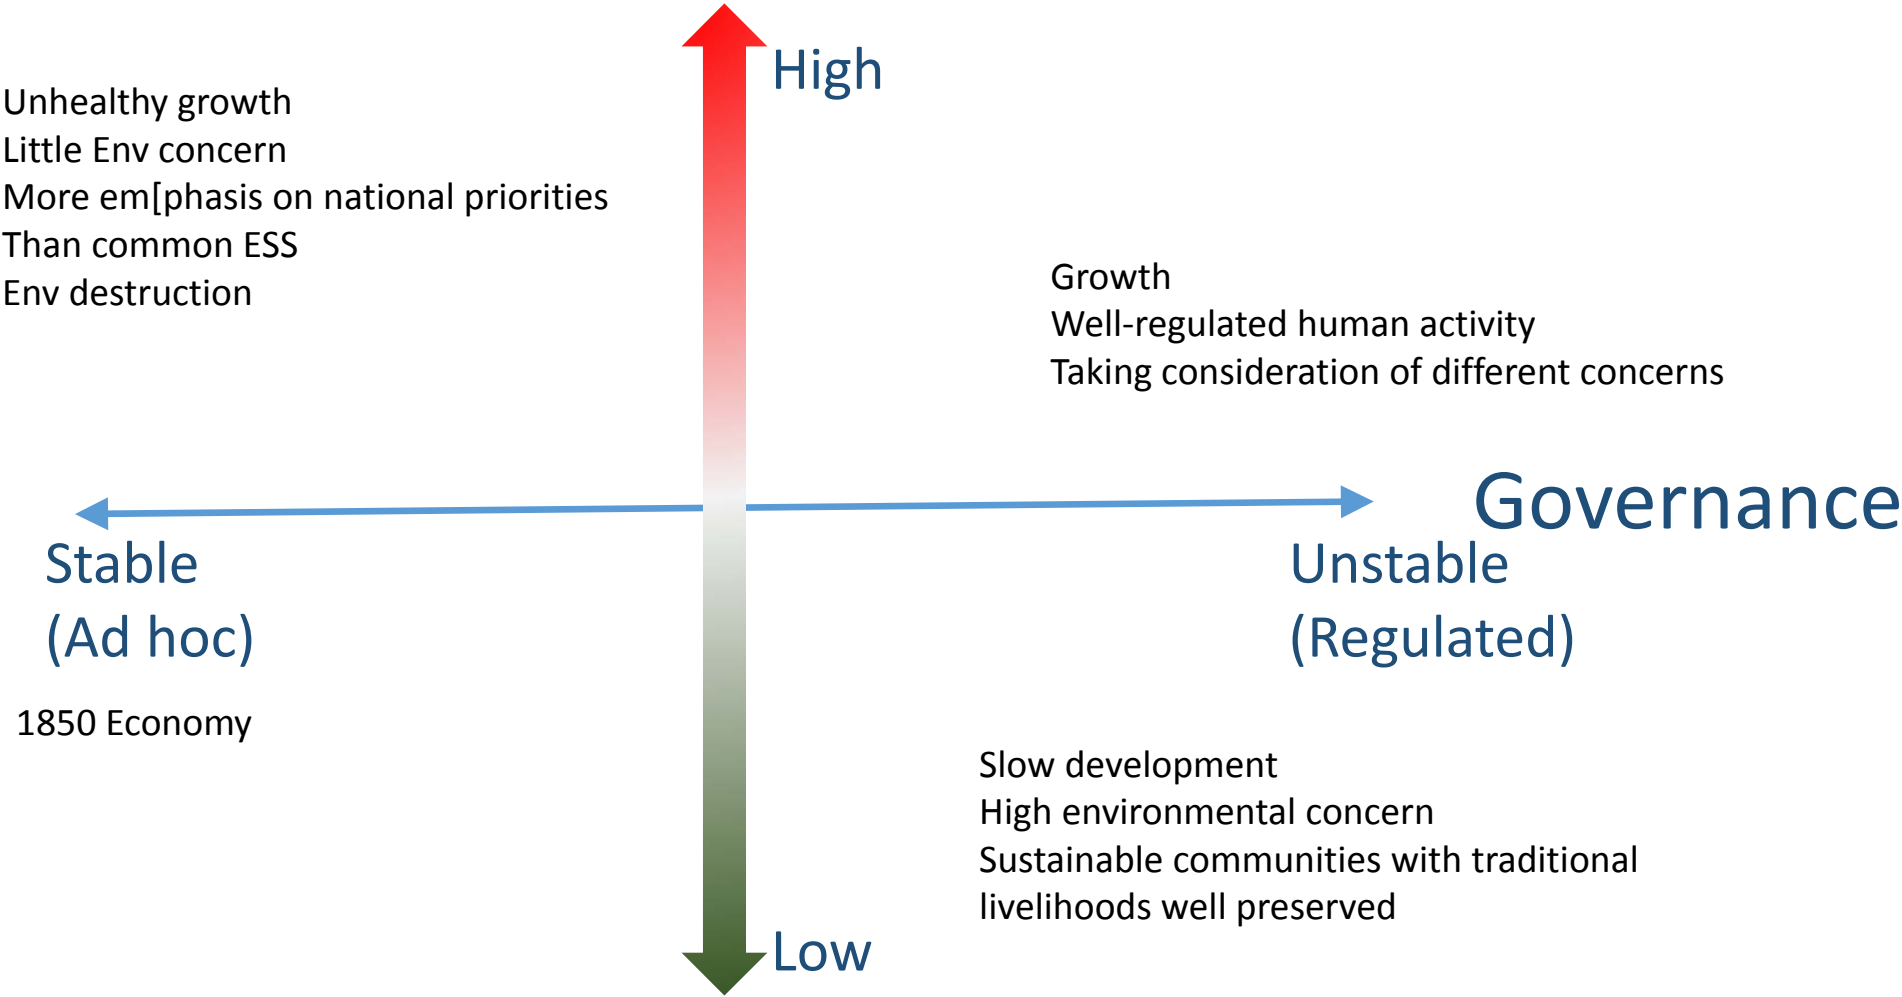

**High**  
 (SSP1)  
 Local / service economy  
 STEADY STATE ECONOMY  
 Slow development  
 Low level of industrial activities (→abandonment)  
 Subsistence economy  
 High environmental concern  
 Sustainable communities with traditional  
 livelihoods well preserved

**Adaptive &  
 Transformative  
 Capacity**
